2. Determine the amount that you would like to spend on each game.
3. Select the **[BUY]** button and the game will automatically begin.

How do I exit the game?

- If you are in the POD Selection screen, select **[Exit]** to return to the Main eBingo screen.

Playing both POD games and eBingo

(Note: eBingo games are not available on designated POD only electronic units.)

You can choose to play any POD Game at the same time as eBingo. While playing a POD Game, you can always view your session best card in the bottom right corner of the screen. For half-screen view only games, session play cards will be displayed on the right half of the screen.

- To return to Session Bingo, press the **[Return to Bingo]** button.
- Your POD Game will be paused and you will be returned to Session Bingo when you're only one ball away from a Bingo on your Session play card, so that you can monitor your cards and prepare for a Bingo.
- If you complete the winning pattern, you **MUST** yell out **"Bingo"** to stop the game, and press the **[Bingo]** button. Be sure to yell loud enough so the caller knows the terminal has a winning card.
- Resume POD Game play by selecting the **[Return to Game]** button.

REMINDER: If you choose to return to your POD Game when you're one ball away from a Bingo, the system will NOT return you to eBingo a second time. However, you will still be able to view the card closest to reaching a Bingo. If you get a Bingo, select the **[Return to Game]** button to go back to your winning eBingo card. If you complete a winning pattern, you **MUST** yell out **"Bingo"** to stop the game, and press the **[Bingo]** button.
